Overview

ExL is proud to announce the launch of the TMF Institute — a landmark professional development program for TMF professionals. The instruction provided of each course will offer comprehensive education and training for participants return to work with the savvy, knowledge and skill sets they need to thrive at work. Each of the courses of the TMF Institute will provide information tailored for a specialized job function, or that relates to a particular theme. This summer, TMF professionals may select one of the two-day long courses that are offered each day.
