Overview

ICG 2019 aims to bring together the renowned researchers, scientists, and scholars to exchange and share their experiences on all aspects of Catalysis and Green Chemistry. It is also an immense platform to present and discuss the utmost advances, concerns and drifts as well as pragmatic challenges and solutions adopted in the field.

Speakers

Nicolas Abatzoglou Université de Sherbrooke, Canada

Title: A new catalyst for the conversion of aromatics to HC and CO-rich gas

Helaja Tuulamari Vice President at VTT, Finland

Title: Adding value to biomass through catalytic transformation

Janusz Stafiej Cardinal Stefan Wyszyński University, Poland

Title: Cellular automata based simulations for the autocatalytic mechanism in pitting corrosion
