Manufacturing, Other

Hanoi International Center for Exhibition
91 Tran Hung Dao Street / 4 Tran Binh Trong
Street
Hanoi HoanKiem District 10000
Vietnam

Price: Free

Overview

Following the success of the previous edition, MTA HANOI (MTA) will once again be the vital platform that brings the latest manufacturing technologies and services to the key industry buyers in North Vietnam. Manufacturing in Vietnam remains resilient as foreign invested enterprises stay optimistic about their business performance and continue to expand their business. Many groups from the US are also pouring investments into Vietnam, hoping to become the leading investor in the country. Representatives of 21 US corporations, including big names Chevron, Caterpillar, and General Electric (GE), recently visited Vietnam to sound out investment opportunities.
